

# Hazardous Materials Placards

Must meet strict specifications and requirements as defined in 49 CFR part 172.519

Look no further for safety compliance signs and labels for racks, totes, tanks, buildings, fences, secure areas and packaging. Pre-numbered and blank placards, signs and labels allow you to fit our products to your exact specifications. All of our products are designed with a standardized template that ensures proper size, placement and font for:

- Hazard Logos
- UN Numbers
- Borders
- Signal Words
- UN Blank Window
- Class

We provide placards for domestic truck, rail and air transport, and international placards that comply with BS 5609 requirements. We offer a variety of materials including pressure sensitive, both perm and clean removable, magnetic, aluminum and long lasting adhesive placards for fixed tanks and dedicated containers. Our materials, inks, laminates, and UV coatings are matched to the purpose and meet or exceed all durability requirements set forth by the DOT and IMO.

Decades of experience manufacturing hazmat labels and placards makes Empower Label the one source you can rely on for best-in-class safety messaging products.

# Hazardous Materials Placards

## DOT Placards

- Standard, pre-numbered, and explosives placards
- Available in rigid plastic, permanent vinyl, removable vinyl, laminated tagboard, magnetic and aluminum
- Gloss lamination looks great, provides chemical and weather resistance and enables one piece removal
- Industry tested and field proven adhesive removes cleanly
- Inks have been refined over decades for ultra-light fastness and brightness to maximize distance legibility

## DOT 4 x 4 Diamond Labels

- Available in all-weather permanent vinyl and permanent gloss paper
- UV gloss topcoat available for chemical resistance

## NFPA Signs / Labels

- Aluminum and/or aluminum composite and magnetic

Whether it's road, rail, sea or air, we look forward to serving your hazmat transportation labeling, safety and compliance needs! At Empower Label, we turn innovation into industry specific solutions that work for you! Contact Empower Label for more information or samples.
